

Quick guide to Mobile Printing

These instructions explain how to print from your laptop or other mobile device.

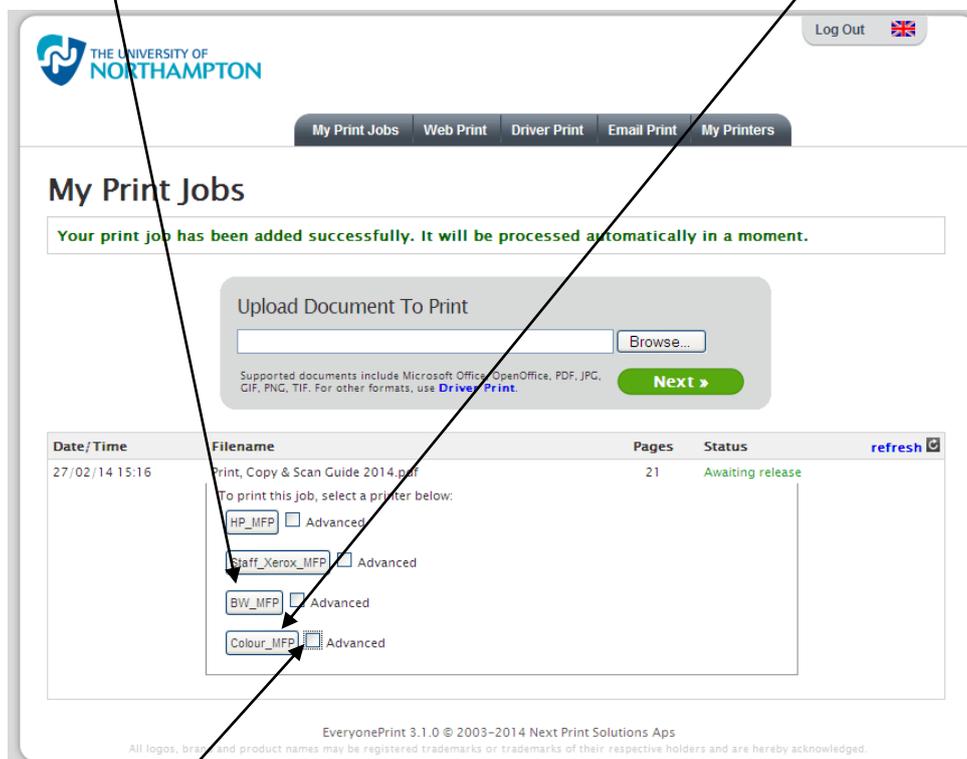

- 1) Open your internet browser and navigate to <https://mobileprint.northampton.ac.uk>
- 2) Log in using your username and password (the same as for NILE)

Printing a file from your computer (or other mobile device)

- 1) Click on **Browse** and locate the file on your computer

- 2) When you have located the file, click **Next**.
- 3) Click the **BW_MFP** button for black and white printing, or **Colour_MFP** for colour.

- 4) Select the **Advanced** check box for access to advanced printing options.

Remember that there will be a slight delay between **sending** your work to print and it **arriving** at the printer. This will be longer for large files.

Printing a file from the internet using Web Print

- 1) Log in to the Mobile Print service (see overleaf for details).
- 2) Select the **Web Print** tab.

You may experience difficulty printing large web pages through the system. If this happens, try **saving** the content of the page to your computer first—for example, as a Word file—before trying to print.

If you need some help with this, please ask a member of library staff.

Use Web Print to print by uploading a document or entering a Web address.

This will occur if you try to print something off that is on a **password protected** web page, even if you are logged in.

For this reason, printing directly from NILE **will not work**. You must save the document (e.g. lecture slides) to your computer first.
